PRESS RELEASE

Scandent to venture into “Family Care” in India

Our company proposes to venture into primary healthcare and support services. The goal is to deliver quality, credible and affordable first level of medical support to patrons. Scandent’s “Family Care” centers will provide convenience, care and basic support services to our esteemed patrons.

This expansion from our focused dental scanning and imaging business is to enable our existing range of services and touch into the lives of many more patrons in a quicker and positive manner. This effort will also help Scandent consolidate, lead and grow on its existing business in a better manner.

Scandent believes there is a huge opportunity to reorganize and service consumers of family healthcare today across India. Our company estimates that urban India’s 100 million high value-seeking patients needing primary care and support and will seek new generation support and experience. “Family Care” is positioned to service this market segment.

Our “Family Care” centers would be technologically enabled, extremely consumer friendly, superior diagnostics based, 24X7X365 service assisted, state of the art, patron delight focused experience healthcare centers. Plus, multi-utility service providers would be tagged as partners for providing a holistic experience to our patrons. Our service would be delivered through three principal modes of service: at-venue, video-conferencing and at-home support.

Initially, we intend to set up ‘3’ Model ‘Family Care’ habitat centers in Mumbai and then gradually ramp up across India with the learning’s and experiences from these centers.

Noting on this development, Dr. Gautam Deshpande, Managing Director, Scandent Imaging Limited, said “Overcoming initial challenges and fine tuning on this initiative could payoff

significantly for the company. Customer delight is and will continue to remain our only focus. We seek to hire, train and include best-of-class Doctors, Consultants, and Professionals to build this unique experience for our patrons. This will be a strategic game-changer initiative for our company.”

The company seeks to accelerate its roll-out plans for this project post the stabilization of this ground performance analysis and review matrix.
